

TORRESOLAR

**TRACK RECORD 2010**

# TRACK RECORD

- TORRESOLAR has developed more than 100 Photovoltaic and Solar Thermal installations in Argentina and has participated in the Engineering of Solar and Wind Projects in Chile and Uruguay as far as Carbon Credit management in Argentina. Here are some of them as examples:

**Project: Supply, Installation and Direction of Works of 2 Photovoltaic Generators for the feeding of natural gas duct control telecommunications equipments**

Country: Argentina

Site: Malargüe and Cara Cura – Mendoza Province

Owner: Repsol YPF

Address: Roque Sáenz Peña 777 -Buenos Aires

Start Date (month/year): Jan 2004

End Date (month/year): June 2004

Description of the Job: Engineering, design, supply of materials, installation, putting in function and commissioning of 2 photovoltaic generators for the feeding of gas duct and oil duct telecommunications and control equipment

Duration of Works (months): 6

Services effectively provided for firm personnel for the Project: Turn Key Job

# TRACK RECORD

## Project: Supply, Installation and Direction of Works of Photovoltaic Generators for Agriculture Establishment

Country: Argentina Site: Escobar –Buenos Aires Province

Owner: Alfred Toepfer International Ltd.

Address: Alicia Moreau de Justo 2050 – Buenos Aires

Start Date (month/year): April 2007

End Date (month/year): September 2009

Description of the Job: Engineering, design, supply of materials, installation, putting in function and commissioning of 4 photovoltaic generators for feeding of communications equipments surveillance, TV cameras for cattle control, electrification of fences, lighting and residential consume.

Duration of Works (months): 6

Services effectively provided for firm personnel for the Project: Turn Key Job

## Project: Supply, Installation and Direction of Works of Photovoltaic Generators

Country :Argentina Site: Rio Negro Province and Formosa Province

Owner: Instituto Nacional de Tecnología Agropecuaria

Address: INTA E.E.A Bariloche, Pasaje Villa Verde s/n Ruta 237 c.c 277 SC de Bariloche, Provincia de Rio Negro

Start Date (month/year): May 2008 / End Date (month/year): July 2008

Duration of Works (months): 3

Description of services effectively provided for firm personnel for the Project: Turn Key Job

# TRACK RECORD

## Project: Supply, Installation and Direction of Works of Photovoltaic Generators

Country : Argentina Site: several locations in Buenos Aires Province

COMPAÑIA GENERAL  
DE TIERRAS S.A.

Owner: Compañía General de Tierras

Address: Av. Corrientes 151 Buenos Aires

Start Date (month/year): February 2005 / End Date (month/year): January 2006

Services effectively provided for firm personnel for the Project: Turn Key Job

Duration of Works (months): 12

Description of the Job: Engineering, design, supply of materials, installation, putting in function and commissioning of 4 photovoltaic generators for feeding of lighting equipment and appliances in rural sites.

## Project: Supply, Installation and Direction of Works of Solar generators for Signaling of Bridge Rosario-Victoria (Argentina)

Country :Argentina Site: Entre Ríos Province

Owner: Puentes del Litoral SA

Address: Estación de Peaje "Isla La Deseada" Victoria - Entre Ríos

CC II Sucursal 8 Rosario, CP 2000

Start Date (month/year): October 2007 / End Date (month/year): January 2008

Duration of Works (months): 4

Description of the Job: Engineering, design, supply of materials, installation, putting in function and commissioning of 10 photovoltaic generators for feeding of signaling equipment for the fluvial way of channel Rosario-Victoria.

## SOLAR WATER HEATING

- TORRESOLAR has developed many projects in solar heating for sanitary water & swimming pools.

### Project: Supply, Installation and Direction of Works of Solar Thermal Panels

Country: Argentina Site: Martínez –Buenos Aires Province

Owner: Estudio Seward Mercier

Address: Penna 654 – Martínez – Provincia de Buenos Aires

Start Date (month/year): May 2006

End Date (month/year): July 2006

Services effectively provided for firm personnel for the Project: Turn Key Job

Duration of Works (months): 3

Description of the Job: Engineering, design, supply of materials, installation, putting in function and commissioning of 1 Solar thermal Generator for sanitary water and pool heating.
